### Independent Auditors Report

To the Board of Education of IKM-Manning Community School District:

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of IKM-Manning Community School District, Manilla Iowa, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Districts basic financial statements listed in the table of contents.

## Managements Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles. This includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Districts preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Districts internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above presents fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of IKM-Manning Community School District as of June 30,

2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

#### Other Matters

## Required Supplementary Information

U.S. generally accepted accounting principles require Managements Discussion and Analysis, the Budgetary Comparison Information and the Schedule of Funding Progress for the Retiree Health Plan on pages 4 through 12 and 38 through 40 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U. S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with managements responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise IKM-Manning Community School Districts basic financial statements. We previously audited, in accordance with the standards referred in the third paragraph of this report, the financial statements for the two years ended June 30, 2013 (which are not presented herein) and expressed unqualified opinions on those financial statements. The supplementary information included in Schedules 1 through 6, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with <u>Government Auditing Standards</u>, we have also issued our report dated May 31, 2015 on our consideration of IKM-Manning Community School Districts internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide and opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> in considering IKM-Manning Community School Districts internal control over financial reporting and compliance.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

IKM-Manning Community School District provides this Managements Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2014. We encourage readers to consider this information in conjunction with the Districts financial statements, which follow.

#### **USING THIS ANNUAL REPORT**

The annual report consists of a series of financial statements and other information, as follows:

Managements Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the Districts financial activities.

The Government-wide Financial Statements consist of a Statement of Net Position and a Statement of Activities. These provide information about the activities of IKM-Manning Community School District as a whole and present an overall view of the Districts finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report IKM-Manning Community School Districts operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which IKM-Manning Community School District acts solely as an agent or custodian for the benefit of those outside of District government.

Notes to financial statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the Districts budget for the year, as well as presenting the Schedule of Funding Progress for the Retiree Health Plan.

Supplementary Information provides detailed information about the nonmajor governmental funds.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

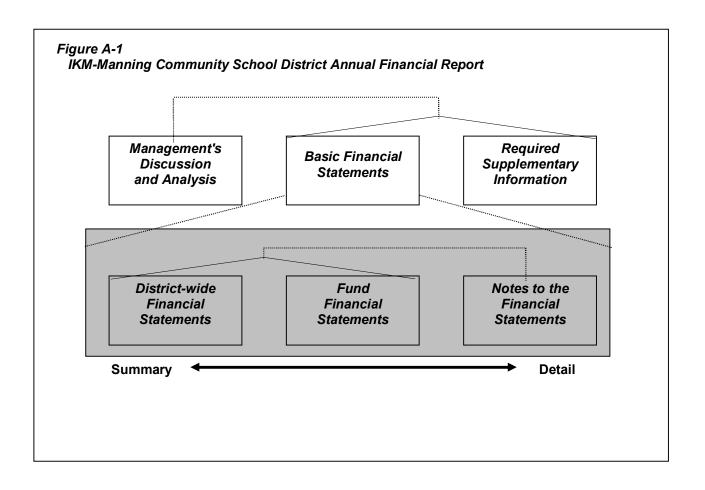

Figure A-2 summarizes the major features of the Districts financial statements, including the portion of the Districts activities they cover and the types of information they contain.

	Government-wide		Fund Statements	
	Statements	Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire District (except fiduciary funds)	The activities of the District that are not proprietary or fiduciary, such as special education and building maintenance	Activities the District operates similar to private businesses: food services	Instances in which the District administers resources on behalf of someone else, such as scholarship programs
Required financial statements	Statement of net position	Balance sheet     Statement of	Statement of net position	Statement of fiduciary net position
	Statement of activities	revenues, expenditures and changes in fund balances	Statement of revenues, expenses and changes in fund net position	Statement of changes in fiduciary net position
			Statement of cash flows	
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset/ liability information	All assets and liabilities, both financial and capital, short-term and long-term	Generally, assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long- term liabilities included	All assets and liabilities, both financial and capital, short-term and long-term	All assets and liabilities, both short-term and long-term; funds do not currently contain capital assets, although they can
Type of inflow/ outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid	All additions and deductions during the year, regardless of when cash is received or paid

## REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES

#### Government-wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the Districts assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. All of the current years revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide financial statements report the Districts net position and how it has changed. Net position is one way to measure the Districts financial health or financial position. Over time, increases or decreases in the Districts net position is an indicator of whether financial position is improving or deteriorating.

To assess the Districts overall health, additional non-financial factors, such as changes in the Districts property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the Districts activities are divided into two categories:

- Governmental activities: Most of the Districts basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- Business type activities: The District charges fees to help cover the costs of certain services it provides. The Districts school nutrition program is included here.

#### Fund Financial Statements

The fund financial statements provide more detailed information about the Districts funds, focusing on its most significant or major+funds. not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds, or to show that it is properly using certain revenues, such as federal grants.

The District has three kinds of funds:

1) Governmental funds: Most of the Districts basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the Districts programs.

The Districtos governmental funds include the General Fund, Special Revenue Funds, Debt Service Fund and Capital Projects Fund.

The required financial statements for governmental funds include a balance sheet and a statement of revenues, expenditures and changes in fund balances.

2) Proprietary funds: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's Enterprise Funds, one type of proprietary fund, are the same as its business type activities, but provide more detail and additional information, such as cash flows. The District currently has one Enterprise Fund, the School Nutrition Fund.

The required financial statements for proprietary funds include a statement of net position, a statement of revenues, expenses and changes in fund net position and a statement of cash flows.

- 3) Fiduciary funds: The District is the trustee, or fiduciary, for assets that belong to others. These funds include Private-Purpose Trust and Agency Funds.
  - Private-Purpose Trust Fund. The District accounts for outside donations for scholarships for individual students in this fund.
  - Agency Funds. These are funds through which the District administers and accounts for certain federal and/or state grants as a fiscal agent.

The District is responsible for ensuring the assets reported in the fiduciary funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

The required financial statements for fiduciary funds include a statement of fiduciary net position and a statement of changes in fiduciary net position.

Reconciliations between the government-wide financial statements and the fund financial statements follow the fund financial statements.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

Figure A-3 below provides a summary of the Districts net position at June 30, 2014 compared to June 30, 2013.

Figure A-3

	Condensed Statement of Net Position						
_	Governme	ental	Business-type		Total		Percentage
	Activitie	Activities		ies	School Dis	strict	Change

Total liabilities	3,313,029	2,992,429	3,457	44,830	3,316,486	3,037,259	-8%
Deferred inflows of resources _	3,852,870	3,545,615	4,864	4,908	3,857,734	3,550,523	-8%
Net Position:							
Net investment in capital							
assets	1,058,152	1,131,945	68,682	58,291	1,126,834	1,190,236	6%
Restricted	2,387,011	2,644,826	-	-	2,387,011	2,644,826	11%
Unrestricted	1,637,170	2,142,231	(43,989)	(86,764)	1,593,181	2,055,467	29%
TOTAL NET POSITION	5,082,333	5,919,002	24,693	(28,473)	5,107,026	5,890,529	15%

The Districts combined total net position increased 15%, or \$783,503, over the prior year. The largest portion of the Districts net assets is the invested in capital assets (e.g., land, infrastructure, buildings and equipment), less the related debt. The debt related to the investment in capital assets is liquidated with sources other than capital assets.

Restricted net position represent resources that are subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. The Districts restricted net position increased \$257,815 or 11% over the prior year. The increase was primarily a result of decreased expenditures in the Physical Plant and Equipment Levy Fund.

Unrestricted net position . the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements . increased \$462,286, or 29%. This increase in unrestricted net position was a result of the District using carryover fund balance to meet its financial obligations during the year.

Figure A-4 shows the change in net position for the year ended June 30, 2014 compared to the year ended June 30, 2013.

In fiscal year 2014 property tax and unrestricted state grants account for 64% of the total revenue. The Districtos expenses primarily relate to instruction and support services, which account for 88% of the total expenses.

## **Governmental Activities**

Revenues for governmental activities were \$9,448,899 and expenses were \$8,612,230. In a difficult budget year, the District was able to balance the budget by trimming expenses to match available revenues.

The following table presents the total and net cost of the Districts major governmental activities: instruction, support services, non-instructional programs and other expenses.

Figure A-5

# **Total and Net Cost of Governmental Activities**

	Total Cost of Services 2013 \$	Total Cost of Services 2014 \$	Net Cost of Services 2013 \$	Net Cost of Services 2014 \$
Instruction	5,619,113	5,160,677	3,974,657	3,488,742
Support Services	2,870,553	2,793,782	2,868,802	2,790,962
Non-instructional	-	2,562	-	2,562
Other Expenses	609,105	655,209	329,421	359,825
TOTAL	9,098,771	8,612,230	7,172,880	6,642,091

For the year ended June 30, 2014

- The cost financed by users of the Districts programs was \$811,825. Most of these revenues are derived from tuition charged to other school districts and from student activities.
- Federal and state governments subsidized certain programs with grants and contributions totaling \$1,158,314.
- The net cost of governmental activities was financed with \$4,648,200 in property and local other taxes and \$2,806,919 in unrestricted state grants.

### **Business Type Activities**

Revenues for business type activities were \$394,062 and expenses were \$447,228. The Districts business type activities include the School Nutrition Fund. Revenues of these activities were comprised of charges for service, federal and state reimbursements and investment income.

## INDIVIDUAL FUND ANALYSIS

As previously noted, IKM-Manning Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds, as well. As the District completed the year, its governmental funds reported a combined fund balance of \$4,835,893.

## **Governmental Fund Highlights**

- The General Fund balance increased from \$1,504,902 to \$2,112,843.
- The Capital Projects Fund balance increased due to no major building projects with the Fiscal 2014 ended with a balance of \$2,246,795.

### **Proprietary Fund Highlights**

School Nutrition Fund net position decreased from \$24,693 at June 30, 2013 to \$(28,473) at June 30, 2014, representing a decrease of 2157%. The decrease was due to the high cost of produce and the addition of equipment. For fiscal year 2016 the cost of all meals and milk will be raised .05 and the elimination of salary cost due to attrition by retirement

#### **BUDGETARY HIGHLIGHTS**

The Districts receipts were \$176,042 more than budgeted receipts, a variance of 2%. The most significant variance resulted from the District receiving less in state aid than originally anticipated.

Total expenditures were more than budgeted, due primarily to the Districts budget for the General Fund. It is the Districts practice to budget expenditures at the maximum authorized spending authority for the General Fund. The District then manages or controls General Fund spending through its line-item budget. As a result, the Districts certified budget should always exceed actual expenditures for the year. The amended the certified budget \$493,000 during the year.

In spite of the Districts budgetary practice, the amended certified budget was exceeded in the instructional, support services, and other expenditures functional areas due to the timing of expenditures at year-end without sufficient time to amend the certified budget.

## **CAPITAL ASSETS AND DEBT ADMINISTRATION**

### **Capital Assets**

At June 30, 2014, the District had invested \$2.9 million, net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities, computers, audio-visual equipment and transportation equipment. (See Figure A-6) This represents a net decrease of 6% from last year. More detailed information about the Districts capital assets is presented in Note 5 to the financial statements. Depreciation expense for the year was \$294,701.

Figure A-6

TOTAL	3,043,152	2,856,945	68,682	58,291	3,111,834	2,915,236	-6%

# **Long-Term Debt**

At June 30, 2014 the District had \$2,145,633 in revenue and other long-term debt outstanding. This represents a decrease of approximately 12% from last year. (See Figure A-7) Additional information about the Districts long-term debt is presented in Note 6 to the financial statements.

The District has a bond non-rating attached to it.

The constitution of the State of Iowa limits the amount of debt school districts can issue to 5% of the assessed value of all taxable property within the district. The 100% valuation stands at 702,832,299 with a total capacity of \$35.1 million and has an outstanding balance of \$2,117,305, leaving \$33 million in bonding capacity.

Percentage

## **ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE**

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its financial health in the future:

- School financing is highly dependent upon student enrollment. The Districts October 2014 enrollment decreased by 8.22 students. This drop in enrollment will decrease the Districts funding for fiscal year 2015. Precautions; due to the uncertainty of the state funding the district will be looking at a negative wew money+growth, along with projects like 1 to 1 at the high school, added STEM curriculum, building of a storage shed, upgrades to the gym, up-grades to door entrance and video surveillance. To pay for these projects, the District will use resources from the Capital Projects and the Physical Plant and Equipment Levy Fund.
- The District will negotiate a new agreement during fiscal 2015. Settlements in excess of % money+or allowable growth in state funding will have an adverse effect on the District General Fund budget and related fund balance.

#### CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District citizens, taxpayers, customers, investors and creditors with a general overview of the District citizens and to demonstrate the District accountability for the money it receives. If you have questions about this report or need additional financial information contact Superintendent Dr. Thomas Ward, IKM-Manning Community School District, 209 10<sup>th</sup> Street, Manning, Iowa, 51455.

## IKM-MANNING COMMUNITY SCHOOL DISTRICT

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances - Governmental Funds to the Statement of Activities

Year ended June 30, 2014

	\$	\$
Change in fund balances - total governmental funds (Exhibit E)		728,467
Amounts reported for governmental activities in the Statement of Activities are different because:		
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are not reported in the Statement of Activities and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. Depreciation expense, capital outlay expenditures and gain on disposal of capital assets in the current year are as follows:		
Gain on disposal of capital assets	5,139 92,964	
Expenditures for capital assets Depreciation expense	(284,310)	(186,207)
Income surtaxes not collected for several months after the District's fiscal year ends are not considered "available" revenues in the governmental funds and are included as deferred revenues. They are, however, recorded as revenues in the Statement of Activities.		(5,174)
Repayment of long-term liability principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.		260,000
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds, as follows:		
Termination benefits Other postemployment benefits	106,469 (66,886)	39,583

## IKM-Manning COMMUNITY SCHOOL DISTRICT

#### Notes to Financial Statements

June 30, 2014

## 1. Summary of Significant Accounting Policies

IKM-Manning Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve. The geographic area served includes the Cities of Manning, Irwin, Kirkman and Manilla, Iowa and the predominately agricultural territory in a portion of Crawford, Audubon, Carroll and Shelby Counties. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The Districts financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

## A. Reporting Entity

For financial reporting purposes, IKM-Manning Community School District has included all funds, organizations, agencies, boards, commissions, and authorities. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District. The IKM-Manning Community School District has no component units that meet the Governmental Accounting Standards Board criteria.

<u>Jointly Governed Organizations</u> - The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the County Assessor's Conference Board.

#### B. Basis of Presentation

<u>Government-wide Financial Statements</u> - The Statement of Net Position and the Statement of Activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Position presents the Districts nonfiduciary assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net Position. Net position is reported in the following categories:

*Net investment in capital assets* consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt attributable to the acquisition, construction, or improvement of those assets.

Restricted net position results when constraints placed on net position use are either externally imposed or are imposed by law through constitutional provisions or enabling legislation. Enabling legislation did not result in any restricted net position.

*Unrestricted net position* consists of net position not meeting the definition of the preceding categories. Unrestricted net position is often subject to constraints imposed by management, which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions, and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

<u>Fund Financial Statements</u>. Separate financial statements are provided for governmental, proprietary, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor governmental funds. Combining schedules are also included for the Capital Project Fund Accounts.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other revenues not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instructional, support and other costs.

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities and other capital assets.

The Districts proprietary fund is the Enterprise, School Nutrition Fund. This fund is used to account for the food service operations of the District.

The District also reports fiduciary funds which focus on net position and changes in net position. The Districts fiduciary funds include the following:

The Private-Purpose Trust Fund is used to account for assets held by the District under trust agreements, which require income earned to be used to benefit individuals through scholarship awards.

#### C. Measurement Focus and Basis of Accounting

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants, and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be

susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgements, and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted, net position available to finance the program. It is the Districts policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the districts policy is generally to first apply the expenditure toward restricted fund balance and then to less-restrictive classifications . committed, assigned, and then unassigned fund balances.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary funds principal ongoing operations. The principal operating revenues of the Districts Enterprise Fund is charges to customers for sales and services. Operating expenses for Enterprise Funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

## D. Assets, Liabilities, Deferred Inflows of Resources and Fund Equity

The following accounting policies are followed in preparing the financial statements:

<u>Cash, Cash Equivalents and Pooled Investments</u> - The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investment in the lowa Schools Joint Investment Trust which is valued at amortized cost and non-negotiable certificates of deposit, which are stated at cost.

For purposes of the Statement of Cash Flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash, and at the day of purchase, have a maturity date no longer than three months.

<u>Property Tax Receivable</u>. Property tax in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax

receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1 ½% per month penalty for delinquent payments; is based on January 1, 2012 assessed property valuations; is for the tax accrual period July 1, 2013 through June 30, 2014 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April, 2013.

<u>Due from Other Governments</u>. Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants, and reimbursements from other governments.

<u>Inventories</u>. Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

<u>Capital Assets</u>. Capital assets, which include property, furniture and equipment and intangibles, are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Position. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

Asset Class	<u>Amount</u>
	\$
Land	-
Buildings	5,000
Improvements other than buildings	5,000
Intangibles	25,000
Furniture and equipment:	
School Nutrition Fund equipment	500
Other furniture and equipment	5,000

Capital assets are depreciated using the straight line method over the following estimated useful lives:

Asset Class	Estimated <u>Useful Lives</u>
Buildings	50
Improvements other than buildings	20-50
Intangibles	3-10
Furniture and equipment	5-20

The Districts collection of library books and other similar materials are not capitalized. These collections are unencumbered, held for public exhibition and education, protected, cared for and preserved and subject to District policy that requires proceeds from the sale of these items, if any, to be used to acquire other collection items.

<u>Salaries and Benefits Payable</u>. Payroll and related expenditures for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

Advances from Grantors . Grant proceeds which have been received by the District but will be spent in a succeeding fiscal year.

<u>Compensated Absences</u>. District employees accumulate a limited amount of earned but unused vacation and sick leave hours for subsequent use. Employees are not paid for unused vacation and sick leave benefits when employment with the District ends.

<u>Long-term Liabilities</u>. In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Position.

<u>Deferred Revenue</u>. Although certain revenues are measurable, they are not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources consist of property tax receivable and other receivables not collected within sixty days after year end.

Deferred inflows of resources in the Statement of Net Position consists of succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied.

<u>Fund Equity</u>. In the governmental fund financial statements fund balances are classified as follows:

<u>Restricted</u>. Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

<u>Unassigned</u>. All amounts not included in the preceding classifications.

## E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2014, expenditures exceeded the amended amounts budgeted in the instructional, non-instructional and other expenditures functions.

#### 2. Cash, Cash Equivalents and Pooled Investments

The District's deposits in banks at June 30, 2014 were entirely covered by federal depository insurance, or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

The District had no investments meeting the disclosure requirements of Governmental Accounting Standards Board Statement No. 3, as amended by Statement No. 40.

## 3. Interfund Receivables and Payables

The detail of interfund receivables and payables at June 30, 2014 is as follows:

Receivable Fund	Payable Fund	Amount
		\$
General	Nonmajor Enterprise School Nutrition	47,528

## 4. Interfund Transfers

The detail of interfund transfers for the year ended June 30, 2014 is as follows:

Transfer To	Transfer From	Amount
		\$
Nonmajor Governmental Debt Service	Capital Projects Fund	357,950
General Fund	Management Fund	1,000

This transfer moved revenues from the fund statutorily required to collect the resources to the fund statutorily required to expend the resources.

Balance

# 5. Capital Assets

Capital assets activity for the year ended June 30, 2014 was as follows:

	Beginning			5. 5.
	of Year, as		Decreases &	Balance End

Food services	10,391

## 6. Long-Term Liabilities

Changes in long-term liabilities for the year ended June 30, 2014, are summarized as follows:

	Balance Beginning of Year \$	Additions \$	Reductions \$	Balance End of Year	Due Within One Year \$
Governmental activities:					
Revenue bonds	1,985,000	-	260,000	1,725,000	-
Termination benefits	382,426	-	106,469	275,957	82,102
Net OPEB liability	69,086	66,887		135,973	
Total	2,436,512	66,887	366,469	2,136,930	82,102
Business type activities: Net OPEB liability	3,457	5,246		8,703	

## **Termination Benefits**

The District offered a voluntary early retirement plan to its employees in fiscal year 2013. Eligible employees must have completed at least twenty years of service to the District and must have reached the age of fifty-five on or before June 30 in the calendar year in which the employee resigned. The application for early retirement is subject to approval by the Board of Education.

The District will pay for single plan health insurance until the retiree reaches age 65.

At June 30, 2014, the District has obligations to thirteen participants with a total liability of \$275,957. Actual early retirement expenditures for the year ended June 30, 2014 totaled \$106,469.

#### Revenue Bonds

Details of the Districts June 30, 2014 statewide sales, services and use tax revenue bonded indebtedness are as follows:

	Bond Issue of May 2008			
Year Ending				
June 30,	Interest Rates	Principal	Interest	Total
	%	\$	\$	\$
2015	3.90		11,116	11,116
2016	4.10	50,000	7,751	57,751
2017	4.25	50,000	5,663	55,663

2016	4.90	130,000	6,600	136,600
2017	5.00	100,000	2,000	102,000
		230,000	20,600	250,600
		Bond Issue	of May 2009	
Year Ending				
June 30,	Interest Rates	Principal	Interest	Total
	%	\$	\$	\$
2015		-	69,695	69,695
2016		-	69,695	69,695
2017		-	69,695	69,695
2018	4.90	100,000	67,245	167,245
2019	5.00	100,000	62,295	162,295
2020-2024	5.10-5.45	505,000	233,613	738,613
2025-2029	5. 50-5.70	590,000	86,909	676,909
		1,295,000	659,147	1,954,147

The District has pledged future statewide sales, services and use tax revenues to repay the bonds issued in May 2008, June 2008 and May 2009. The bonds were issued for the purpose of financing infrastructure costs. The bonds are payable solely from the proceeds of the statewide sales, services and use tax revenues received by the District and are payable through 2029. The bonds are not a general obligation of the District. However, the debt is subject to the constitutional debt limitation of the District. Annual principal and interest payments on the bonds are expected to require nearly 70% of the statewide sales, services and use tax revenues. The total principal and interest remaining to be paid on the notes is \$2,433,953. For the current year, \$260,000 of principal and \$97,950 of interest was paid on the bonds and total statewide sales, services and use tax revenues were \$640,040.

#### 7. Pension and Retirement Benefits

The District contributes to the Iowa Public Employees Retirement System (IPERS) which is a costsharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 5.78% of their annual covered salary and the District is required to contribute 8.67% of annual covered salary. Contribution requirements are established by state statute. The District's contributions to IPERS for the years ended June 30, 2014, 2013 and 2012 were \$401,232, \$442,733 and \$373,287 respectively, equal to the required contributions for each year.

#### 8. Other Postemployment Benefits (OPEB)

<u>Plan Description</u> - The District operates a single-employer retiree benefit plan which provides medical and prescription drug benefits for retirees and their spouses. There are 110 active and 10 retired members in the plan. Participants must be age 55 or older at retirement.

The medical/prescription drug coverage is provided through a fully-insured plan. Retirees under age 65 pay the same premium for the medical/prescription drug benefit as active employees, which results in an implicit subsidy and an OPEB liability.

<u>Funding Policy</u>. The contribution requirements of plan members are established and may be amended by the District. The District currently finances the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation - The Districts annual OPEB cost is calculated based on the annual required contribution (ARC) of the District, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the Districts annual OPEB cost for the year ended June 30, 2014, the amount actually contributed to the plan and changes in the Districts net OPEB obligation:

	\$
Annual required contribution	110,289
Interest on net OPEB obligation	1,814
Adjustment to annual required contribution	(5,534)
Annual OPEB cost	106,569
Contributions made	(34,436)
Increase in net OPEB obligation	72,133
Net OPEB obligation beginning of year	72,543
Net OPEB obligation end of year	144,676

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2012. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2014.

For the year ended June 30, 2014, the District contributed \$34,436 to the medical plan. Plan members eligible for benefits contributed \$58,687, or 100% of the premium costs.

The Districts annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation are summarized as follows:

		Percentage of	
	Annual	Annual OPEB Cost	Net OPEB
Year Ended June 30,	OPEB Cost	Contributed	Obligation
	\$	%	\$
Combined IKM and Mann	ning Districts		
2010	61,769	17	51,119
2011	63,076	17	103,513
IKM-Manning District			
2012	58,389	100	103,513
2013	22,337	239	72,543
2014	106,569	32	144,676

<u>Funded Status and Funding Progress</u> - As of July 1, 2012, the most recent actuarial valuation date for the period July 1, 2013 through June 30, 2014, the actuarial accrued liability was \$618,104, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$618,104. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$4,308,000, and the ratio of the UAAL to covered payroll was 14.3%. As of June 30, 2014, there were no trust fund assets.

Actuarial Methods and Assumptions - Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information in the section following the Notes to Financial Statements, will present multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2012 actuarial valuation date, the frozen entry age actuarial cost method was used. The actuarial assumptions includes a 2.5% discount rate based on the Districts funding policy. The projected annual medical trend rate is 6.0%.

Mortality rates are from the 94 Group Annuity Mortality Table, projected to 2000.

The UAAL is being amortized over 30 years.

### 9. Risk Management

The District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

## 10. Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The Districts actual amount for this purpose totaled \$289,135 for the year ended June 30, 2014, and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

## 11. Categorical Funding

The Districts restricted fund balance for categorical funding at June 30, 2014 is comprised of the following programs:

Program	Amount
	\$
Home school assistance	23,695
Dropout prevention	27,961
At risk	720
Limited English proficiency	5,423
Mentoring	300
Teacher salary supplement	7,569
Educator quality, professional development	26,503
Gifted and talented	18,558
Early reader	17,704
Teacher leadership	7,714
Core curriculum	61,586
	197,733

## 12. Prospective Accounting Change

The Governmental Accounting Standards Board has issued Statement No. 68, <u>Accounting and Financial Reporting for Pensions</u>. an <u>Amendment of GASB No. 27</u>. This statement will be implemented for the fiscal year ending June 30, 2015. The revised requirements establish new financial reporting requirements for state and local governments, which provide their employees with pension benefits, including additional note disclosures and required supplementary information. In addition, the Statement of Net Position is expected to include a significant liability for the governments proportionate share of the employee pension plan.

Notes to Required Supplementary Information - Budgetary Reporting

Year ended June 30, 2014

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standard Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except Internal Service, Private Purpose Trust and Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on a GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated function level, not by fund. The Code of Iowa also provides District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. The District amended its certified budget \$493,000 for the year.

During the year ended June 30, 2014, expenditures exceeded the amended amounts budgeted in the instructional, support services and other expenditures functions.

Independent Auditors Report on Internal Control
Over Financial Reporting and on compliance and Other Matters
Based on an Audit of Financial Statements Performed in Accordance with
Government Auditing Standards

To the Board of Education of IKM-Manning Community School District:

We have audited in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in <u>Governmental Auditing Standards</u>, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of IKM-Manning Community School District and of and for the year ended June 30, 2014, and the related notes to financial statements, which collectively comprise the Districts basic financial statements, and have issued our report thereon dated May 31, 2015.

## Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered IKM-Manning Community School Districts internal control over financial reporting to determine the audit procedures appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of IKM-Manning Community School Districts internal control. Accordingly, we do not express an opinion on the effectiveness of IKM-Manning Community School Districts Internal Control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings and Responses, we identified deficiencies in internal control we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the Districts financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiencies described in Part I of the accompanying Schedule of Findings and Responses as items 14-I-A and 14-I-B to be material weaknesses.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether IKM-Manning Community School Districts financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a

direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under <u>Government Auditing Standards</u>. However we noted certain immaterial instances of non-compliance or other matters which are described in Part II of the accompanying Schedule of Finding and Responses.

Comments involving statutory and other legal matters about the Districts operations for the year ended June 30, 2014 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

## IKM-Manning Community School Districts Responses to Findings

IKM-Manning Community School Districts responses to findings identified in our audit are described in the accompanying Schedule of Findings and Responses IKM-Manning Community School Districts responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

## Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the Districts internal control or on compliance. This report is an integral part of an audit performed in accordance with <a href="Government Auditing Standards">Government Auditing Standards</a> in considering the Districts internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of IKM-Manning Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

## Schedule of Findings and Responses

Year ended June 30, 2014

## Part I: Findings Related to the Financial Statements:

Internal Control Deficiencies:

14-I-A Segregation of Duties: The limited number of personnel makes it difficult to achieve adequate internal accounting control through the segregation of duties and responsibilities, such as recording and processing cash receipts, preparing checks and bank reconciliations, payroll processing, preparing and posting general journal adjusting entries, preparation of journals and general financial information for ledger posting, and the analysis of financial information. A small staff makes it difficult to establish an ideal system of automatic internal checks on accounting record accuracy and reliability, although we noted the District had taken steps to segregate duties between the present personnel. This is not an unusual condition but it is important the District officials are aware that the condition exists.

<u>Recommendation</u>: We realize segregation of duties is difficult with a limited number of office employees. However, the District should review its procedures to obtain the maximum internal control possible under the circumstances utilizing currently available staff, including elected officials.

<u>District Response</u>: We will continue to review our procedures and implement additional controls where possible.

Conclusion: Response accepted.

14-I-B <u>Financial Statement Preparation</u>: Financial statement preparation is the responsibility of the District. At the present time District personnel do not have the skills necessary to be able to write the Districts financial statements and the related note disclosures. This is not an unusual situation for small governmental entities.

Recommendation: District personnel should attend any governmental accounting and reporting training sessions that may be offered by the Iowa Department of Education, State Auditors Office or Iowa Association of School Business Officials. The school business office should also have governmental accounting and reporting reference materials.

<u>District Response</u>: As a school we certainly understand the need for continuing education classes for all of our staff. However, we have a limited budget and must continually prioritize needs. At this point in time it is not cost effective to train our staff to the level necessary that would enable them to write the financial statements, nor is it feasible to hire additional employees that already possess the skills.

Conclusion: Response accepted.

Instances of Noncompliance:

No matters were reported.

## Schedule of Findings and Responses

Year ended June 30, 2014

## Part II: Other Findings Related to Required Statutory Reporting:

14-II-A <u>Certified Budget</u>: Expenditures for the year ended June 30, 2014, exceeded the amended certified budget amounts budgeted in the instructional, non-instructional and other expenditures functions.

Recommendation: The certified budget should have been amended in accordance with Chapter 24.9 of the Code of Iowa before expenditures were allowed to exceed the budget.

<u>District Response</u>: Future budgets will be amended in sufficient amounts to ensure the certified budget is not exceeded.

Conclusion: Response accepted.

- 14-II-B <u>Questionable Expenditures</u>: No expenditures we believe may not meet the requirements of public purpose as defined in an Attorney Generals opinion dated April 25, 1979 were noted.
- 14-II-C <u>Travel Expenses</u>: No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.
- 14-II-D <u>Business Transactions</u>: We noted no transactions between the District and District officials or employees.
- 14-II-E <u>Bond Coverage</u>: Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure that the coverage is adequate for current operations.
- 14-II-F <u>Board Minutes</u>: We noted no transactions requiring Board approval that had not been approved by the Board.
- 14-II-G <u>Certified Enrollment</u>: The basic enrollment data certified to the Department of Education was overstated by 1 student.

<u>Recommendation:</u> The District should review its control procedures to ensure accurate counts in the future.

<u>District Response</u>: We will continue to review our procedures and implement additional controls where possible.

Conclusion: Response accepted.

- 14-II-H <u>Supplementary Weighting</u>: No variances regarding the supplementary weighting certified to the lowa Department of Education were noted.
- 14-II-I <u>Deposits and Investments</u>: We noted no instances of noncompliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the Districts investment policy.
- 14-II-J <u>Certified Annual Report</u>: The Certified Annual Report was certified to the Iowa Department of Education timely.

## Schedule of Findings and Responses

Year ended June 30, 2014

## Part II: Other Findings Related to Required Statutory Reporting (continued):

- 14-II-K <u>Categorical Funding</u>: No instances were noted of categorical funding being used to supplant rather than supplement other funds.
- 14-II-L <u>Statewide Sales, Services and Use Tax</u>: No instances of non-compliance with the allowable uses of the statewide sales, services and use tax revenue provided in Chapter 423F.3 of the Code of lowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales, services and use tax revenue. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education. For the year ended June 30, 2014, the District reported the following information regarding the statewide sales, services and use tax revenue in the Districts CAR:

Beginning balance	\$	\$ 1,554,016
Revenues/transfers in: Statewide sales, services and use tax revenue Other local revenues	640,040 6,249	646,289
Expenditures/transfers out:	0,210	2,200,305
School infrastructure construction Transfers to debt service fund	30,008 357,950	387,958
Ending balance		1,812,347

For the year ended June 30, 2014, the District did not reduce any levies as a result of the moneys received under Chapter 423e or 423F of the Code of Iowa.

14-II-M <u>Deficit Balances</u>: The School Nutrition Fund has an unrestricted net assets deficit of \$86,664 at June 30, 2014.

<u>Recommendation</u>: The District should continue to monitor this fund and investigate alternatives to eliminate the deficit.

District Response: We are working on ways to eliminate the deficit.

Conclusion: Response accepted.
